2 x 12L Double Module Options

The CYL-003 family of luminaires feature an elegantly rounded profile that is designed to complement a variety of architectural expressions.

The CYL-003 7010 & 7010LR luminaires provide a variety of illumination options with an elegant triangular profile and a durable all aluminum construction. Available as a up/down wall mount with a light reveal feature now available for both models, adding interest and illumination.

The pencil beam features a precision focused beam that highlights architectural detail, while other optics offer beam angles to provide area illumination. This fixture provides abundant illumination in a compact size.

Both the CYL-003 7010 & 7010LR luminaires are listed for wet locations to UL/CSA standards.

Rebelle's standard powder paint finishes are available. RAL or custom powder paint finishes can be specified.

For detailed information on all CYL-003 luminaires please refer to our website rebellelighting.com.
